Introduction

Welcome to the world of \$COFFEE

Welcome to \$COFFEE, where we've combined the best of coffee and cryptocurrencies for an exciting experience! As a holder of \$COFFEE tokens, you'll be pleased to know that your investment is part of a unique project that blends the love of coffee with the excitement of the crypto world.

Imagine enjoying the aroma of freshly brewed coffee while watching your assets appreciate. The \$COFFEE token is designed to offer both value and a sense of community, providing an enriching experience for all holders.

Marketing and Growth

Effective marketing is crucial for the success of any cryptocurrency project. At \$COFFEE, we are committed to spreading the word about our unique token through strategic marketing campaigns. This includes social media promotions, influencer partnerships, and community events. By allocating resources to marketing, we ensure a steady stream of new investors and community members, which contributes to the overall growth and sustainability of the \$COFFEE ecosystem.

Liquidity and Stability

Liquidity is the backbone of any cryptocurrency. By ensuring that a portion of our funds is dedicated to the liquidity pool (LP), we maintain stability and liquidity for the \$COFFEE token ecosystem. This helps ensure smooth transactions and reduces the impact of market fluctuations, providing a safety net for investors.

Tokenomics

Presale and Initial Distribution

To ensure the successful launch of the \$COFFEE token, we have planned a presale and initial distribution strategy.

- **Presale Allocation:** We have allocated 33% of the total supply of 646,464,646,464 tokens to the presale, which equates to approximately 213,333,333,333 tokens. The funds collected during the presale will be used as follows:
 - **Market Making / Liquidity:** 51% of the presale funds, or about 108,866,666,667 tokens, will be reserved for market making and liquidity purposes.
- **Adding Liquidity:**
 - The reserved tokens for market making and liquidity (108,866,666,667 tokens) will be converted into an equivalent amount of SOL or USDC (as accepted on Raydium).
 - These tokens and the corresponding SOL or USDC will be used to add liquidity on Raydium, following the necessary steps to ensure a stable and liquid market for \$COFFEE.

Remaining Distribution

- **CEX and Market Making:** 33% of the remaining supply (approximately 213,333,333,333 tokens) will be allocated to liquidity on centralized exchanges (CEX), market making, and supporting the needs of market makers.
- **Treasury and Marketing:** 22% of the tokens (about 142,020,222,222 tokens) will be used for treasury and marketing purposes. These funds will support various development initiatives, marketing campaigns, and fund management activities.
- **Early Contributors:** 11% of the tokens (around 71,111,111,111 tokens) will be distributed to early contributors based on agreed terms.
- **Airdrop:** Finally, 1% of the tokens (approximately 6,464,646,464 tokens) will be reserved for an airdrop to eligible recipients, fostering community growth and engagement.

Total Supply: 646,464,646,464
